2" Round Compass & Water or Air Temperature System *CTR Series*

American Technology Components, Inc. is pleased to introduce an addition to the already successful line of compass/temperature systems. The *CTR Series* combines exclusive performance characteristics and a backlit LCD display in a standard 2" round gauge package.

FEATURES INCLUDE:

- ☑ ***Moisture-proof temperature sensors for water or air***
- ☑ ***Moisture-proof gauge suitable for marine applications***
- ☑ ***Easy to read, backlit LCD display***
- ☑ ***Simply mounted in-dash or in-console via threaded collar***
- ☑ ***Shipped as a complete kit for no hassle installations***

As always, American Technology Components, Inc. is committed to providing cutting edge, innovative products that meet and exceed industry standards.

It is the mission of American Technology Components, Inc. to make the customer successful and pleased with every ATC product installed.

If you are interested in literature or ordering samples, please contact an ATC representative at your earliest convenience.
