

@HOME SERIES

Enhancing image while maintaining integrity, the @HOME Series by American Technology Components, Inc. 12V wall switch panels were developed based on the collective input of engineers and interior design personnel within our industry. The result is a family of new switch panels.

The benefits of the @HOME Series include:

- Contoured rocker switch with a 360% larger switch surface than the competition
- Low profile radius switch panels with 50% less height from the wall than the competition, while maintaining a shallow wall depth
- Multiple switch configurations provide superior cosmetic design, fit, and function while using the same switch button

American Technology Components, Inc. is an innovative, custom manufacturer providing products and services across multiple industries. ATC manufactures Audio/Video Controls, Switch Controls, Electronic Controls, RF Controls, Interior and Exterior 12V Lighting, Wiper Systems and Components, 12V Accessories and Molded Convenience items. Additionally, ATC's engineering and sales teams work together with your company to create continued integrity for your application needs.

SPECIFICATIONS:
