

RLM SERIES RELAY/SOLID-STATE MODULES

American Technology Components, Inc. has designed a signal separator for combined stop/turn signaling systems. If you desire separate turn and stop signal indicators, but have a combined system, this is what you need. Designed to withstand the mobile vehicle environment, the solid-state, signal processing unit interprets the factory's combined inputs and provides separated outputs.

The benefits of the RLM Series include:

- Encapsulated for Moisture, Dust & Vibration Protection
- Custom Wiring and Connectors Available

Available with .250 Tabs instead of wires

American Technology Components, Inc. is an innovative, custom manufacturer providing products and services across multiple industries. ATC manufactures Audio/Video Controls, Switch Controls, Electronic Controls, RF Controls, Interior and Exterior 12V Lighting, Wiper Systems and Components, 12V Accessories and Molded Convenience items. Additionally, ATC's engineering and sales teams work together with your company to create continued integrity for your application needs.

SPECIFICATIONS:

Operating Voltage	9VDC to 18VDC
Max. Current	10A DC
Operating Temperature Range	-40°C to 85°C

Switch on CONTROL.

From concept to circuit design to finished product, American Technology Components is your one source manufacturer. With more than 30 years in the custom electronics business, we have the resources to achieve your product requirements.
